Meet the Artists: Prepare to be surprised and inspired  
Doorways to Infinite Possibility

The Doorways to Infinite Possibility is a collaborative multimedia exhibition reflecting literal and figurative expressions of movement from one place to another. JSDD WAE Center artists working alongside lead artists, explored the notions of home, transition, reflection and all the ways these concepts weave together in an artist's mind. The result is a highly introspective group show that captures the magic which happens when barriers to inclusion vanish.  
Shifting Perceptions of Ability, Art and Community

Come and experience the coming together of WAE Center artists and our ten lead artists...and see where their journey together has created.

Exhibit Open from November 11, 2018 thru December 27th
